

Q-SPORT PRECISION LASER PEN

QSPORT-LASER

QVIS[®]
LIGHTING & SECURITY

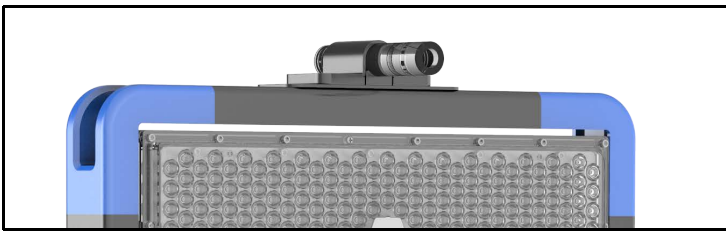

This laser pen is an useful tool if you want to ensure that the light from the Q-Sport hits exactly where you want it to. This is important if you want to illuminate certain areas of the pitch (goals, zones, touchlines etc.)

The pen easily attaches to the top of the floodlights using a secure bracket.

Note that the pen is rechargeable; you can expect 1-2 hours of operation from a single charge

**Overall Dimensions - Laser & Bracket (mm):
545 x 600 x 508mm**
