

Glow UFO 170

Current Dial Dimmer (Electronic Potentiometer)

CODE: GLOWUFO-DIM

Technical

*240W maximum wattage is achievable only with 1-10V drivers that are capable of producing 240W or more of system power.

Input Voltage	DC 10V [Max.] / DC 0.5V [Min.]
Output Control Current	4mA
Wattage Increments	10W Increments [As low as 20W, up to 240W]
Compatibility	For Use With 1-10V Drivers [Glow UFO 170 Highbays all use 1-10V as standard]
Dimmable Input Port	UL Rated; 20AWG X 2C [150mm] for Dim+ and Dim-
Working Temperature	-25 to +45°C [Ambient operation at full load]
Working Humidity	20% to 90% RH [Non-condensing]
Storage Temperature	-20 to +80°C
Storage Humidity	10% to 90% RH [Non-condensing]
MTBF	25,000 Hours at Ta=25°C
Dimensions	32mm x 20mm x 35.5mm
Weight	0.046kg
